Product Information

The IPA-Based Flux Remover - *IsoClean* is a plastic-safe, non-corrosive, ESD-safe circuit cleaner that quickly and easily removes fluxes, pastes, light oils and grease, as well as organic residues. It is effectively used as a circuit cleaner and stencil cleaner.

IsoClean is the strongest IPA-based cleaner on the market. While most IPA-based cleaners contain up to 30% water, this cleaner contains virtually no water and is undiluted by airborne humidity. 100% volatile, it evaporates cleanly with no rinsing required. It is safe on all materials including components, connectors, cables and elastomers.

Dispense directly from the can or use with the *MicroCare TriggerGrip* cleaning system for faster, safer, and more economical process of cleaning printed circuit boards at the work bench. This option cuts cleaning costs by reducing fluid use by 66%.
