

Technical Bulletin

DEK Spatula

DESCRIPTION

DEK Spatulas are ideal for removing solder paste safely from stencils, preventing aperture damage and may also be beneficial for removing paste from the jar.

These spatulas are color-coded to allow operators to easily identify the most appropriate tool for their application (i.e Green for Lead Free). The Spatula is supplied in both Green and White and is sold individually. DEK spatulas are manufactured in polypropylene ensuring they are light, durable, shatterproof, and flexible, for long-lasting performance.

FEATURES AND BENEFITS

- Constructed of durable polypropylene
- Shatterproof and flexible
- Easy to grip
- Less likely than metal spatulas to scratch the stencil surface
- Easily cleaned with pre-saturated wipes
- Wide blade width for more efficient clearing of solder paste

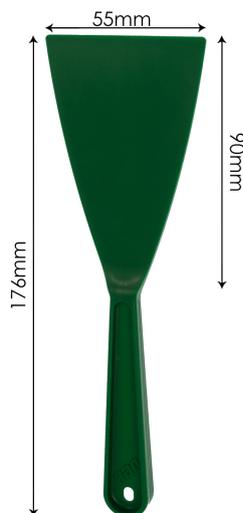

PART NUMBERS

Green	SPATULAG
White	SPATULAW

DIMMENSIONS

Spatula Dimmensions

Total Length: 176mm
Head Length: 90mm
Width: 55mm
