HS4VS Disposable Heel Straps

DESCRIPTION

Black and yellow disposable heel straps, ideal for visitors or short term use. The conductive plastic wall dispenser is an ideal awareness for instructing users of the importance of heel straps as well as storage. Supplied in a pack of 100 with optional wall dispenser. Designed for plant visitors and other temporary workers who enter static controlled floor. It is made by anti-static non-woven fabrics and could provide the safe and effective resistance. Depends on conductive yarn in the anti-static fabrics to create and maintain electrical contact between ground and body and can reach the efficiency of static dissipation.

FEATURES AND BENEFITS

- Easy to use and comfortable to wear.
- Application: Anywhere that is static controlled environment.
- Composition: 99% polyester + 1% conductive yarn.
- Supplied in a pack of 100.
- Made by anti-static fabrics.

CONSTRUCTION

- 1) Align the pressure sensitive end of products with the front edge and centre of shoe heel.
- 2) Peel the protective liner and mount the device. Press it firmly to the bottom of the heel.
- 3) Wrap the contact ribbon of the heel grounder up the back shoe and lay it inside.
- 4) Step into the shoe.
- 5) Repeat steps one to four on the other shoe
