## OKi MFR-1160 Single Output Soldering Workstand Change

Product Update

OK International has made the following changes to its OKi MFR-1160 Series:

### Part Number Description

MFR-1160	Single output MFR-1100 with MFR-H6-SSC Hand-piece, now includes the WS2 Workstand instead of the WS1 Workstand
MFR-1161	Single output MFR-1100 with MFR-H6-SSC and MFR-H1-SC Cartridge Hand-pieces, and one WS1 Workstand and one WS2 Workstand instead of two WS1 Workstands
MFR-UK6	Upgrade Kit: MFR-H6-SSC Hand-piece now comes with the WS2 Workstand instead of the WS1 Workstand

### Features & Benefits:

- Users will be able to smoothly transition from their Metcal SP200 Soldering System to the flexible MFR-1100 Single Output Soldering Series, which offers soldering and rework applications versatility without compromising on their choice of consumables.
- Powered by SmartHeat Technology.
- The MFR-H6-SSC hand-piece is ESD, lightweight and ergonomic (same design as SP-HC1 hand-piece)
- Compatible with all Metcal SSC tip cartridges

**Note: the MFR-H6-SSC Hand-piece can also be used on the MFR-2200 Series Dual Simultaneous Output Soldering & Rework Systems but can not be used with:**

- MFR-PM70 Power Meter.
- The older style MFR-PS1K or MFR-PS2K Power Supplies.
- The Metcal SP200 Soldering System

The WS2 Workstand now comes with the MFR-1160 Series.
